# How to Join & Contribute

[About](#)[Community](#)[Technology](#)[Resources](#)[News & Events](#)[Become a Member](#)

## Join the Community

### Contribute to open source

We welcome anyone to get involved and contribute to our technical and development communities at any time. CDF communities are organized around open source projects and special interest areas. The [CDF Technical Oversight Committee \(TOC\)](#) facilitates communication and collaboration among the different groups, so if you are not sure where to start, [join the TOC mailing list](#).

[Join CD.Foundation Slack](#)[Community Calendar](#)

## CDF Special Interest Groups

### Interoperability SIG

Join the conversation around driving for better tool interoperability in the ecosystem.

[Learn More](#)

### Events SIG

Join the community working towards standardizing events in continuous delivery systems.

[Learn More](#)

### MLOps SIG

Join the community looking to make machine learning assets first-class citizens in the DevOps workflow.

[Learn More](#)

### Best Practices SIG

Help create a living, community-driven knowledge source that captures and distributes the various best practices acquired over the years.

[Learn More](#)

### Software Supply Chain SIG

Join this group to take a practice oriented approach to the Software Supply Chain.
